

Beaumont Care - Rothwell

The Service is located in a quiet neighbourhood and offers 60 places via an assortment of single, double and multi-bed rooms to persons who are classified as 'high care'. Residents are not required to pay a Bond to enter this service.

Specifically catering for people with dementia who wander, the facility liaises with Dementia Specialists and Services to ensure that optimum care is available for the residents.

Meals are cooked-fresh daily and delicious cooking stimulates the residents' appetites at meal times. We engage in a multitude of activities to stimulate the senses, and create joy and laughter and reminiscences. Laundry services are also provided on site.

We have a large internal courtyard which provides attractive surrounds and seating areas and a safe and secure environment for residents who wander.

Staff at the facility is committed to the provision of personalized services which are a particular focus of the Director of Nursing who has worked in the Organisation for over three years.

Registered Nurses offer 24 hour care and support for residents, complemented by Enrolled Nurses, Assistants in Nursing, Hospitality, Activity, Gardening and Maintenance staff.

A staff Chaplain, Physiotherapist and Massage Therapist ensures consistent, quality care for residents from personnel who are known and familiar to them.

General Practitioners, Specialists, Advisory Groups such as Dementia Behaviour Management Advisory Service and supporting Therapists (Dietician, Podiatrist, and Speech Pathologist) ensure that residents receive optimum care which meets all of their needs.

Specific education regarding the care for people with dementia is regularly provided to staff to ensure that the Service is providing best practice care and services.

Recognizing that many elderly folk have pets, and the additional benefits of pet therapy provides for people with dementia, Beaumont Care welcomes residents' pets into Rothwell Aged Care Service.

A varied Activity Program ensures that residents are engaged in meaningful activities which reflect their interests and skills.
