

Common Areas

Dining/Living Room

A newly painted and decorated Dining/Living Room offers a friendly ambience for diners and residents who wish to join in group activities. Located near the kitchen, the Dining area permeates with the aroma of delicious, Chef-prepared meals, stimulating the appetite of our residents.

This versatile room, caters for both large and small group activities, entertainer concerts and family and community celebrations.

Palliative Care/Sensory Room

A retreat for residents and their families who wish for some privacy. Newly refurbished, this flexible-use room offers discrete and gentle visual and auditory stimulation and a nook for therapeutic touch and relaxation plus the experiencing of delectable tastes.

Sitting Rooms

Two recently refurbished rooms welcome families to share precious moments and to create lasting memories. Residents/families self-serve refreshments or utilize these quiet spaces for tete e tetes.

Leisure Hub

Large screen TV and comfy chairs provide a cinema-like experience. Cooking, craft & group activities engage residents. A secluded space for family meals, made to order by our Chef.

Pamporium

Hairdressing and pamper sessions see this beautifully decorated room abuzz with resident chatter.

Courtyards

Two airy Courtyards cater for fresh air and sun-seekers. One Courtyard caters for residents who smoke. Frequenting by residents throughout the day, the Courtyards double as meeting places to foster friendships and conversations plus inviting areas for al fresco dining, barbeques. Birds twitter gaily and can be heard amidst the residents' chatter while 'Sweetie', the resident dog, noses residents' hands to gain their attention.

A raised garden, designed by residents, creates much pleasure and pride. A gazebo offers shelter from inclement weather and a place for families to share conversation and meals, while artificial turf provides a bowling green.

Features of the Home

Company owned bus.

The home located in a residential neighbourhood is a 'stone's throw' away from a private Hospital and Doctors, close to a park containing native species and no more than 2kms from beaches, swimming pools and scenic walking paths. Close to a major Shopping Centre, Cinema, Restaurants, Bowling and RSL Clubs and public transport, the home offers a safe 'home away from home'.

The Model of Care focusses on each resident as a special individual who needs support and understanding in a warm and accepting environment. The "Key Carer" role sees each resident allocated a special worker who gets to know and understand him/her and the family and provides special insight about the resident for other staff and health care workers.

Residents' life stories are represented pictorially and provide a wonderful knowledge of each person - yesterday, today and tomorrow. Many staff are members of a group of Enthusiasts who are dedicated to assisting each resident to experience the very best life possible and to supporting residents' families and friends during difficult times.

Skype ensures residents and relatives keep in touch.
