BEAUMONT CARE

Warm-Hearted Care, Your Way

FROM OUR CHIEF OPERATING OFFICER

Colleen Noble

Hello everyone and a Happy New Year!

I hope you all enjoyed Christmas and had the chance to meet up with those who mean the most to you.

Of course, travel plans, work, and the escalation of COVID has proven challenging for us all.

The last five weeks have seen COVID make it's way into some of the homes. I would like to thank everyone for the way in which you have worked to help keep all of us safe. We note the spread is indiscriminate, fast at times, and not showing itself in symptoms in all cases.

Please take care of yourselves during this time. As soon as the peak of the virus has moved on, things will normalise and we will start bus trips again and residents will be out and about.

Colleen

HISTORY

February is the second month of the year in the Julian and Gregorian calendars. The month has 28 days in common years or 29 in leap years, with the 29th day being called the leap day. It is the first of five months to have fewer than 31 days (the other four being April, June, September, and November) and the only one to have fewer than 30 days.

February 1, 2003 - Sixteen minutes before it was scheduled to land, the Space Shuttle Columbia broke apart in flight over west Texas, killing all seven crew members. The accident may have resulted from damage caused during liftoff when a piece of insulating foam from the external fuel tank broke off, piercing a hole in the shuttle's left wing that allowed hot gases to penetrate the wing upon re-entry into the Earth's atmosphere. This was the second space shuttle lost in flight. In January 1986, Challenger exploded during liftoff.

February 4 - Birthday - Aviation pioneer Charles Lindbergh (1902-1974) was born in Detroit, Michigan. He made the first non-stop solo flight from New York to Paris, May 20-21, 1927.

February 6, 1952 - King George VI of England died. Upon his death, his daughter Princess Elizabeth became Queen Elizabeth II, Queen of the United Kingdom of Great Britain and Northern Ireland. Her actual coronation took place on June 2, 1953.

February 7 - Birthday - British novelist Charles Dickens (1812-1870) was born in Portsmouth, England. He examined social inequalities through his works including; David Copperfield, Oliver Twist, and Nicholas Nickleby. In 1843, he wrote A Christmas Carol in just a few weeks, an enormously popular work even today.

February 11, 1929 - Italian dictator Benito Mussolini granted political independence to Vatican City and recognized the sovereignty of the Pope (Holy See) over the area, measuring about 110 acres.

February 14 - Celebrated as (Saint) Valentine's Day around the world, now one of the most widely observed unofficial holidays in which romantic greeting cards and gifts are exchanged.

February 14, 1929 - The St. Valentine's Day massacre occurred in Chicago as seven members of the Bugs Moran gang were gunned down by five of Al Capone's mobsters posing as police.

February 15 - Birthday - Astronomer and physicist Galileo Galilei (1564-1642) was born in Pisa, Italy. He was the first astronomer to use a telescope and advanced the theory that the sun, not the earth, was the center of the solar system.

February 21, 1965 - Former Black Muslim leader Malcolm X (1925-1965) was shot and killed while delivering a speech in a ballroom in New York City.

February 22 - Birthday - George Washington (1732-1799) was born in Westmoreland County, Virginia. He served as commander of the Continental Army during the American Revolution and became the first U.S. President.

February 24, 1582 - Pope Gregory XIII corrected mistakes on the Julian calendar by dropping 10 days and directing that the day after October 4, 1582 would be October 15th. The Gregorian, or New Style calendar, was then adopted by Catholic countries, followed gradually by Protestant and other nations.

February 27, 1991 - In Desert Storm, the 100-hour ground war ended as Allied troops entered Kuwait just four days after launching their offensive against Saddam Hussein's Iraqi forces.
