

BEAUMONT CARE

Community Connections

SPRING
2026

Many residents and families may have noticed the beautiful fresh flowers displayed at reception at Beaumont Care Wamuran.

These blooms are generously donated by Sarah and Daniel from **Five x Five Experiment**, a local flower farm in Elimbah, simply to bring a little joy to our community.

Five x Five Experiment began in 2020 when Sarah and Daniel built a series of 5m x 5m garden beds at home as an "experiment" to grow food for their young family.

Along the way, they planted dahlias and zinnias, discovered a love for growing flowers, and soon began selling small bouquets from the end of their street. Today, while the farm has grown well beyond its original size, the name has remained.

ABOUT THE TEAM

Sarah and Daniel are passionate about creating spaces where people can slow down, connect with nature and enjoy the beauty of seasonal flowers.

Visitors can enjoy flower-picking experiences and workshops, with painting, pottery and bouquet-making proving especially popular.

SPRING IS HERE

Currently, the farm is bursting with spring blooms including poppies, sweet peas and snapdragons.

Sarah particularly loves cottage garden-style flowers that look as though they have been picked straight from Grandma's garden.

When asked why they donate flowers to Beaumont Care Wamuran?

Sarah explained that after hearing local people were purchasing their flowers to bring to loved ones living at Beaumont Care, they wanted to find a way to give back. She loves hearing how the flowers spark memories of residents' own gardens and brighten their day.

WHATS NEXT?

As a career change for both Sarah and Daniel, the journey continues to be one of learning and growth. Each year they refine their growing methods, improve soil health, and discover which flower varieties thrive best in the local area. Looking ahead, visitors can expect more flower-picking experiences and a growing range of creative workshops, including painting, pottery and bouquet-making sessions.

Sunrise or sunset picking session?

Sunrise! "It's a great way to start the day."

Favourite flower scent?

Sweet Pea.

Most underrated flower?

Zinnia. "They come in every colour and we love them."

Best flower for beginners?

Zinnias or Cosmos.

They're easy to grow and keep producing flowers for months.

Dream flower to grow?

"Something that doesn't attract pests would be good!"

"Seeing the joy on people's faces when they come for a picking session and providing a space for people to slow down, be amongst the beauty of flowers and nature is so rewarding for us." – Sarah, Five x Five Experiment.

We sincerely thank Sarah and Daniel for their kindness, generosity and commitment to supporting the Wamuran community. Their flowers bring colour, conversation and joy to residents, families and team members each week.
